

What are the advantages of a sightseeing flight from Zweisimmen?

When you fly with us, you don't just charter *one* seat; the whole plane is yours. How is it possible? The answer is simple: We don't operate as a commercial enterprise. Instead, we conduct the flight on a private base at net cost.

Thus you charter the whole aircraft and have all seats at your disposal. In the Robin DR-400, we are talking about 3 seats, which means, you can invite two more guests to this unforgettable adventure.

Our pilots are all thoroughly trained, and safety is our top priority. Guaranteed!

Incidentally... if you want to put some icing on the cake, treat yourself to **one hour of theoretical instruction** at a special rate. That way, this will become a demo flight for you, and you can show your friends that you are capable of controlling a small plane yourself. When booking, just tell us you require a demo flight with a theoretical introduction.

Where and how long, you're asking? Basically, you can put together your own sightseeing tour. The price is 5.50 Swiss Francs per minute in the air. On the flip side of this brochure, you will find some flat rate suggestions to suit your budget.

The two-seater Super-Dimona is ideal for introductory flights. Be at the controls of a private aircraft today!

In the four-seater Robin, you can invite two more people beside you. What a great gift to your loved ones! And the price remains the same.

Book your sightseeing flight from Zweisimmen today!

A sightseeing flight over the Alps from Zweisimmen aerodrome is a gorgeous experience! Here in the Super Dimona in front of Eiger, Mönch and Jungfraujoch.

Come see the Swiss Alps from above!

„What a trip! This was my first flight over the Alps in a private plane. Sensational! Thanks again to the wonderful pilot. We felt very much at ease from take-off to landing!“

„I took my girl friend to a sightseeing flight over the Bernese Alps. Now she brags with the fact that I proposed to her at the Eiger North Wall...“
